your health info

in one spot

SEEING YOUR RESULTS IN MYHEALTHNL

MyHealthNL gives you secure, real-time access to your health info like lab results, diagnostic imaging reports, and some NL Health Services clinic notes.

After an NL Health Services appointment or test, notes and results may appear in MyHealthNL as soon as they are ready. This means they are available to you at the same time they are available to your provider. **So, you may review them before your provider does.**

You have choices:

View your
results and use the
MyHealthNL health
library to learn more

OR

Wait to talk with
your provider
about your results

No matter what you choose, your provider will still follow up with you as they normally would.
